

# MATCHMAKING EVENT

## Innovation and sustainable construction

**SABINE**, a professional trade fair dedicated to innovation in the building industry organizes in partnership with "Enterprise Europe Network" a matchmaking event.

**3 FEBRUARY 2010 – REIMS (FRANCE)**

### Main topic

This event focuses on **innovative technologies applied to sustainable construction** (materials, products, processes, etc.) It aims to bring together SMEs, technological centres and research institutes looking for or offering innovative solutions and products in this sector. All actors involved in the process are welcome, in particular the following activities :

- **Heating and cooling technologies**
- **Building materials**
- **Exterior and interior fittings**
- **Technical equipments**
- **Passive house technologies**

### Services proposed

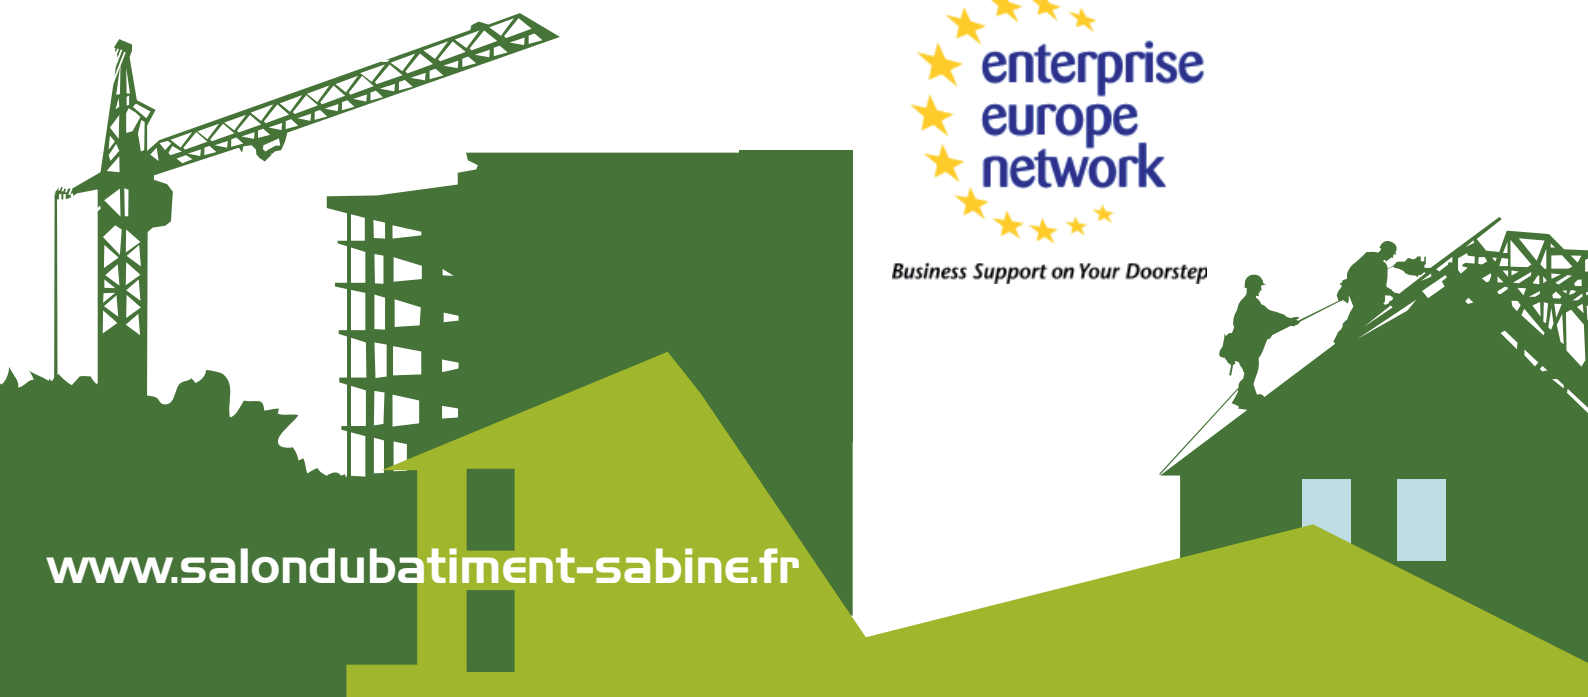

As a registered participant, you are given the opportunity to:

- Meet foreign partners during **pre-scheduled one-to-one meetings**
- Initiate contacts to develop **technological and commercial partnerships**
- Find out about the **latest technological trends** during conferences and workshops
- Visit **Champagne-Ardenne projects and companies** during **a study tour**
